

# TrueNAS

## TRUE DATA FREEDOM

Finding the right storage hardware for your team can be a time-consuming task. That's why we created the [TrueNAS Recommendation Tool](#), so you can discover the perfect product line for your organization's hardware requirements.

Whether you need high-availability storage or a reliable system to backup your data, you'll find the right appliance for your environment and workloads.

The best part? It takes less than 5 minutes. Just select your requirements and the tool will let you know which TrueNAS product line best suits your needs.

Accelerate your way to storage success with the TrueNAS Recommendation Tool. Get started below.

### The TrueNAS Family Lineup
